### YaBB 2.5.2 Converter

Make sure your YaBB 2.5.2 installation is running and that it has all the correct folder paths and URLs.  
Proceed through the following steps to convert your YaBB 1 Gold - SP 1.x forum to YaBB 2.5.2!

**If your YaBB 1 Gold - SP 1.x forum is located on the same server as your YaBB 2.5.2 installation:**

1. Insert the path to your YaBB 1 Gold - SP 1.x forum in the input field below
2. Click on the 'Continue' button

**Else if your YaBB 1 Gold - SP 1.x forum is located on a different server than your YaBB 2.5.2 installation or if you do not know the path to your SP 1.x forum:**

1. Copy all files in the /Boards, /Members, and /Messages folders from your YaBB 1 Gold - SP 1.x installation, to the corresponding Convert/Boards, Convert/Members, and Convert/Messages folders of your YaBB 2.5.2 installation, and chmod them 777.
2. Copy cat.txt from the /Variables folder of your YaBB 1 Gold - SP 1.x installation to the Convert/Variables folder of your YaBB 2.5.2 installation, and chmod it 666.
3. If you have 'Add More Membergroups' installed on your YaBB 1 Gold - SP 1.x, copy MemberStats.txt from the /Variables folder of your YaBB 1 Gold - SP 1.x installation to the Convert/Variables folder of your YaBB 2.5.2 installation, and chmod it 666.
4. Click on the 'Continue' button

Path to your YaBB 1 Gold - SP 1.x files:

Originado de que no estoy actualizando a otra versión del YaBB, busque en la web y encontré que haga caso omiso a esto y que borre el archivo Setup.pl.

Después me accedí al archivo YaBB.pl ubicado en: [http://mi\\_sitio/cgi-bin/yabb2/YaBB.pl](http://mi_sitio/cgi-bin/yabb2/YaBB.pl) y me muestra la siguiente pantalla:
